Wheel bearing module for Dana axles

Amendments to the catalogue

A global market leader, Dana manufactures and produces steering and drive axles for towing vehicles, trailers and auxiliary axles. Since 2009/2010, FAG has been the sole OE supplier for Dana (Pamplona), replacing the previous supplier, Timken.

In order to meet market demands, Schaeffler Automotive Aftermarket has expanded its CV product range to include the axle manufacturer, Dana.

This means that in addition to the existing CV product range, the Aftermarket will now also offer five different wheel bearing modules for Dana axles.

Image 1: TAM (Truck Axle Module) and THU (Truck Hub Unit)

Dana axles are being installed by the following manufacturers:

- VANHOOL (Belgium)
- ALEXANDER DENNIS (UK)
- TEMSA (Turkey)
- DENNIS EAGLE (England)
- SOR (Czech Republic)
- MAZ (Belarus)
- KABUS (Finland)
- KAMAZ (Russia)
- SOLARIS (Poland)
