Deflection pulley 532 0662 10

Use with multiple vehicle manufacturer

Manufacturer: Mercedes, Renault, Volvo

Models:

Mercedes: Actros MP4, Antos, Arocs
 Renault: T-Serie
 Volvo: FH, FM

Engines:

Mercedes: 11L, 13L
 Renault/Volvo: 11L, 13L, 16L
 (nur Euro 6)

Part no.: 532 0662 10

For current listing refer to catalogue media

Fig. 2: 532 0662 10 – INA deflection pulley

Fig. 1: Renault and Volvo deflection pulley

For the accessory unit drive in the engines listed, vehicle manufacturer Renault and Volvo use a deflection pulley with a plastic seal (Fig. 1). In its installed condition, it is equipped with a plastic cap, in order to keep out dirt and water.

Deflection pulley 532 0662 10 (Fig. 2) has the same technical specifications. A steel shield (Fig. 2) seals against penetration by dirt and water, thereby eliminating the need for the additional plastic cap.

Deflection pulley 532 0662 10 is already in use on Mercedes engines and can be used without restriction to replace the deflection pulley shown here (Fig. 1) in Renault and Volvo engines.

Please observe the vehicle manufacturer specifications!
