LuK Clutch Catalogue for Passenger Cars and Light Commercial Vehicles – new 2015/2016 Edition with additional Applications for Double Clutch Transmissions

The new edition of the LuK Clutch Catalogue for Passenger Cars and Light Commercial Vehicles is nearly 700 pages long. This compendium from Schaeffler Automotive Aftermarket contains a total of nearly 3,000 articles for repairing the clutches of vehicle types from more than 60 manufacturers. New is the addition of more applications for double clutch transmissions for vehicles of the Renault brand. With this, the catalogue for vehicle models built 1995 to 2015 reaches a market-coverage rate of more than 95 percent of the Western European vehicle fleet. All information is available in five languages – English, French, German, Italian and Spanish.

A big plus is how fast distributors and garage employees can identify replacement parts and repair solutions – whether it's the LuK RepSet and LuK RepSet Pro for semi and fully-hydraulic clutch systems, or the LuK RepSet DMF and the LuK RepSet 2CT. The catalogue is clearly organized and intelligently structured. Besides introductory information, for instance about Schaeffler Automotive Aftermarket's clutch expertise and its special tools, the LuK Clutch Catalogue for Passenger Cars and Light Commercial Vehicles features an impressive non-verbal structure: Vehicle type, model year and article group – including vehicle-specific information – can be found easily using graphic symbols. Thanks to color-coded index pages, there is no need to turn a lot of pages for cross-referencing to the right special tool or parts list.

Garages can obtain the LuK Clutch Catalogue for Passenger Cars and Light Commercial Vehicles 2015/2016 at the Schaeffler Automotive Aftermarket distribution partners. The new catalogue is also available for downloading on the internet at [. Supplementary information, articles for vehicles manufactured prior to 1995, for example, and Schaeffler Automotive Aftermarket's complete portfolio, can be found online at \[and at the websites and \\[.\\]\\(#\\)\]\(#\)](#)
